### Professional Summary

MCA student with strong knowledge of Java, Python, SQL, MERN Stack, and Data Analysis. Experienced in developing AI/ML projects, full-stack applications, and data-driven solutions. Seeking software development and data-related opportunities.

### Education

Master of Computer Applications (MCA)

Acharya Institute of Graduate Studies, Bangalore | Pursuing (2026-2027)

Bachelor of Computer Applications (BCA)

Jain College of BBA, BCA and Commerce, Belagavi | 2023-2025 | CGPA: 7.95/10

Pre-University Course (PUC)

Gogte College of Commerce and Science, Belagavi | 2020-2022 | Grade: 90.16%

### Technical Skills

Programming Languages: Java, Python, SQL, JavaScript

Technologies: MERN Stack, Firebase, Flutter, AI/ML

Tools: Ubuntu, Power BI, Visual Studio, IntelliJ, Excel

Databases: Oracle SQL, MySQL, MongoDB

### Projects

Deep Fake Video Detection (AI/ML)

- Developed a deep fake video detection system using CNN and LSTM models.
- Implemented analysis dashboards to display fake percentage and prediction metrics.

Event Readiness Planner (Java)

- Built a task and vendor management application for event planning.
- Managed timelines and activities for events with 50+ participants.

KITSU Learn.Prow.Grow (Flutter, Firebase, Gemini)

- Developed an adaptive learning platform with AI-based assessments and skill graphs.
- Generated personalized roadmaps based on student performance.

### Achievements

- First Place in Technical Event organized by CIMS College, Bangalore.
- Participated in Hackathon organized by BMS Institute of Technology and Management, Bangalore.

### Certifications

- Power BI for Data Analysis
- Red Hat Certification
- NPTEL – Data Science Using Python
- Deep Fake Video Detection Project Certificate
- TECHKNOTS Workshop Certificate
